Songwriter, vocalist, and guitar slinger, Phil Gammage is a Texas-born and raised artist who now resides in NYC. His new album, ***From Nowhere to Somewhere***, is a robust collection of Americana songs as diverse and heart-felt as the genre itself. Twisting from railroad cars, endless roads, and the folklore of 20th century America, the album draws inspiration from Phil's life as a musician, historian, and fiction writer.

Standout original tracks include the bluesy "Walk in the Sun", the pop stylings of "So Long and Goodbye", and "Just Another Traveling Man." In addition he presents his stellar interpretations of two classic mid-century country songs — Willie Nelson's "Night Life" and Hank Williams' "Alone and Forsaken."

"Under wrought darkish Americana echoing Nick Cave's fascinations minus the melodrama... might well make Phil this generation's Hank Williams." ~ *Trouser Press*

"...evokes comparison to Bob Dylan's 21st Century canon wherein the blues and roots are rendered in a timeless noir manner: a rare feat in an era where retro is vogue and all too prevalent." ~ *Huffington Post*
